All-in-One Solar & Battery Packages

Affordable, high-quality solar and battery solutions without the restrictions of national providers or tied in energy tariffs.

All systems are installed by our experienced team and include everything you need for a safe, efficient setup — including a consumer unit with surge and RCBO protection, and a digital generation meter.

Every solar installation comes with bird protection as standard, along with a 25-year panel performance guarantee, a 10-year workmanship warranty, and a 10-year equipment warranty on batteries and inverters, giving you complete peace of mind.

We choose SolaX products because they deliver proven reliability and high performance at a competitive price point, allowing us to pass on significant savings to our customers without compromising on quality.

Why Choose Eltom Solar

With over 30 years of experience, Eltom Solar is a trusted provider of high-quality electrical and solar installations.

Our fully accredited team works with leading solar brands to deliver reliable, efficient systems built to last.

We offer a complete end-to-end service, from site survey and system design to installation, commissioning, and ongoing aftercare. Every solution is tailored to your needs, ensuring the best performance for your property.

With competitive pricing and no compromise on quality, Eltom Solar makes investing in solar simple and cost-effective.

PACKAGE 1

Budget-Friendly Solar & Battery System

Take advantage of off-peak tariffs to store cheap energy for use throughout the day.

Package includes:

- 8 × Aiko 470W solar panels
- 3.7kW SolaX hybrid inverter
- SolaX TP 3kW battery storage
- Bird protection
- G98 application and MCS certification
- Scaffolding included

Total Package Price: £4,990

**PACKAGE 2**

Modular Solar & Battery System

A flexible, future-ready system designed to grow with your energy needs. Easily expand your solar capacity and battery storage as your requirements change.

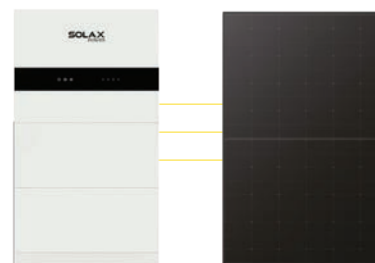

Package includes:

- Longi 480W black solar panels
- SolaX X1 IES inverter with stackable battery system
- 5kW stackable battery (expandable up to 8 units)
- Fully installed, including scaffolding

System options:

- 6 panels + battery: £6,000
- Add 2 panels: £500
- Add 5kW battery: £1,300 per unit (up to eight in total)

Ideal for homeowners looking for a scalable solution with the ability to increase storage and performance over time.

PACKAGE 3

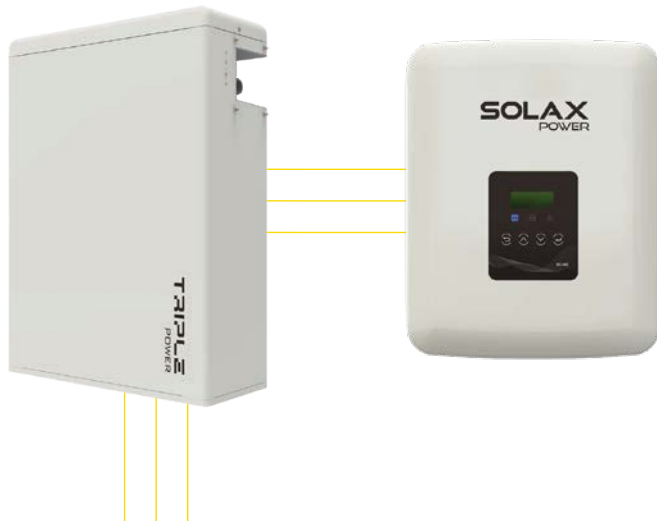

Battery Only Storage System

Enhance your energy independence by storing excess power for use when you need it most.

Package includes:

- SolaX TP58 AC-coupled 5.8kW battery system
- AC charger
- Full supply and installation
- G98 application

Total Package Price: £2,990

**PACKAGE 4**

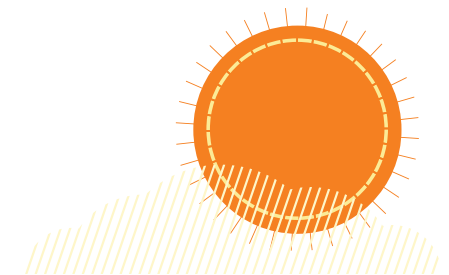

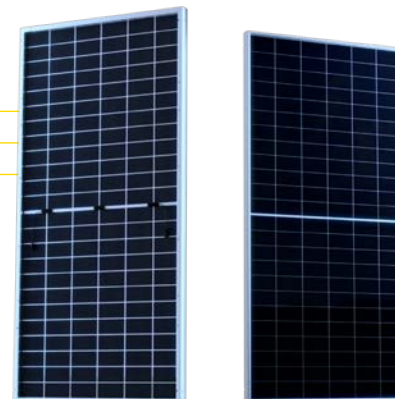

Solar Panel Only System

A straightforward solar solution designed to reduce your energy bills without battery storage.

Package includes:

- 8 × Aiko 470W solar panels (25-year performance guarantee)
- 3.7kW SolaX hybrid inverter (10-year workmanship warranty with insurance-backed guarantee)
- Bird protection
- G98 application and MCS certification
- Scaffolding included

Total Package Price: £3,490

Additional Services

We offer a range of additional services to support your energy and electrical needs:

- Flat roof solar array design and installation
- In roof arrays for a sleek finish
- Commercial solar installations
- Island Mode, ready for power cuts
- Voltage Optimisers for shaded roofs
